EDUCATION

Bandung Institute of Technology

Bachelor of Engineering – Informatics Engineering

Bandung, Indonesia

July 2021 – August 2025

- GPA: 3.59 / 4.00 (Cum Laude)
- Relevant Coursework: Software Engineering, Algorithms & Data Structures, Object-Oriented Programming, Database Systems, AI & Machine Learning, Operating & Distributed Systems

EXPERIENCE

Frontend Developer Intern

AssistX Enterprise

November 2024 – April 2025

Jakarta (Remote)

- Engineered and implemented new data-driven pages and reusable interactive components for an internal monitoring platform using Next.js and Material UI, delivering a scalable and high-performance front-end solution.

Junior Software Engineer

AVS Simulator

September 2024 – December 2024

Bandung

- Transformed an autonomous car's perception system by expanding its YOLO model's detection from a single class to a comprehensive set of 5+ road objects, while resolving instabilities to ensure smooth and continuous tracking.
- Owned the end-to-end engineering of the control system, deploying the recognition model on an NVIDIA Jetson Nano to process video at 60 FPS and command the vehicle's actuators via serial communication.

Software Engineer Intern

Charoen Pokphand Indonesia

July 2024 – September 2024

Jakarta

- Pioneered the company's first biometric attendance solution, single-handedly designing and building the verification backend with Python and FastAPI to eliminate identity fraud for 5,000+ employees across 2,000+ stores.
- Enhanced the front-end React Native app by introducing a suite of accountability features, headlined by randomized check-ins and the seamless integration of the new biometric system.

Computational Engineering Laboratory Assistant

School of Electrical Engineering and Informatics, Bandung Institute of Technology

August 2023 – December 2024

Bandung

- Selected from a pool of 60+ applicants to serve as a Course Assistant for Algorithm Strategy, Probability & Statistics, Linear Algebra & Geometry, and Discrete Mathematics.
- Crafted project specifications and graded student work (projects, assignments, and quizzes) for 170+ students.

PROJECTS

Project Name | Technologies Used

Month Year

- Description of the project and what it accomplishes
- Key technologies or methodologies used
- Results or impact of the project

Another Project | Technologies Used

Month Year

- Brief description of this project
- What you learned or achieved

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, HTML/CSS, SQL

Frameworks: React, Node.js, Express, Spring Boot, Django

Developer Tools: Git, VS Code, IntelliJ, Eclipse

Databases: MySQL, PostgreSQL, MongoDB

Libraries: pandas, NumPy, Matplotlib
